This listing of claims will replace all prior versions and listings of claims in the Application.

LISTING OF CLAIMS:

1. **(Currently Amended)** A computer-implemented system for viewing performance data comprising:
 - performance determining means for determining earnings estimates performance data for one or more contributors;
 - a memory for storing the determined earnings estimates performance data;
 - a performance aggregation module for aggregating the determined earnings estimates performance data for one or more selected contributors, the selected contributors selected from among the one or more contributors, the determined earnings estimates performance data aggregated according to one or more user-defined criteria; and
 - a performance view module for viewing, via a graphical user interface, the aggregated earnings estimates performance data for the selected contributors.
2. **(Previously Presented)** The system of claim 1, wherein the performance determining means determines earnings estimates performance for the selected contributors in absolute terms.

Applicant: GATTO
Serial No: 09/722,050
Filing Date: November 27, 2000

3. **(Previously Presented)** The system of claim 1, wherein earnings estimates performance for the selected contributors is determined relative to other contributors' performance.
4. **(Previously Presented)** The system of claim 1, wherein the earnings estimates performance data is determined based on user selected error metrics.
5. **(Previously Presented)** The system of claim 1, wherein the earnings estimates performance data is determined based on error metrics and sorted based on user specified criteria.
6. **(Previously Presented)** The system of claim 1, further comprising means for ranking contributors based on user-selected criteria.
7. **(Previously Presented)** The system of claim 1, wherein the user-defined criteria includes one or more of a ticker, a company name, an analyst, a CUSIP, and a unique ticker.
8. **(Previously Presented)** The system of claim 1, wherein the user-defined criteria includes one or more of a broker, a ticker, or a broker and ticker combination.

9. **(Previously Presented)** The system of claim 1, further comprising means for displaying each contributor who made an estimate in a selected fiscal period or selected fiscal periods for a selected security.
10. **(Previously Presented)** The system of claim 9, wherein the means for displaying further displays summary performance metrics for the displayed contributors.
11. **(Previously Presented)** The system of claim 9, wherein the means for displaying further displays aggregate performance metrics for the displayed contributors.
12. **(Previously Presented)** The system of claim 9, wherein the means for displaying further displays a selected one of the displayed contributors period by period performance for the selected security for each period in the selected fiscal period or selected fiscal periods.
13. **(Previously Presented)** The system of claim 9, further comprising means for filtering the displayed contributors to identify contributors who made an estimate in the selected fiscal period or selected fiscal periods to display the identified contributors.
14. **(Previously Presented)** The system of claim 13, further comprising means for receiving user defined filtering parameters for filtering the displayed contributors.

15. **(Previously Presented)** The system of claim 1, further comprising means for displaying securities for which a selected contributor has made an estimate.
16. **(Previously Presented)** The system of claim 15, further comprising means for displaying securities for which the selected contributor has made an estimate in a selected fiscal period or selected fiscal periods.
17. **(Previously Presented)** The system of claim 16, further comprising means for displaying aggregate performance metrics for the selected contributor and displayed securities.
18. **(Previously Presented)** The system of claim 17, wherein the aggregate performance metrics are displayed for estimates made during a selected time frame and represent an aggregated performance over each period in the selected time frame.
19. **(Previously Presented)** The system of claim 15 wherein the means for displaying further displays the selected contributor's period by period performance for a selected one of the displayed securities for each period in a group of selected fiscal periods.
20. **(Previously Presented)** The system of claim 1, further comprising means for selecting a contributor-security pair.

Applicant: GATTO
Serial No: 09/722,050
Filing Date: November 27, 2000
Page: 6 of 13

21. **(Previously Presented)** The system of claim 20, further comprising means for displaying period-by-period performance metrics for each period in a group of selected fiscal periods for the selected contributor-security pair.
22. **(Previously Presented)** The system of claim 1, further comprising means for displaying at least one historical time-series display for a contributor-security pair.
23. **(Previously Presented)** The system of claim 22, wherein the at least one time-series display includes the contributor's estimates and consensus estimates.
24. **(Previously Presented)** The system of claim 22, wherein the at least one time-series display includes the contributor's estimates, consensus estimates, and actual reported earnings for the security.
25. **(Previously Presented)** The system of claim 22, wherein the at least one time-series display includes the contributor's estimates, consensus estimates and actual reported earnings displayed as a vertical bar, with a height indicating the actual reported earnings, on a time axis corresponding to the day the earnings were reported.
26. **(Previously Presented)** The system of claim 22, wherein the system simultaneously displays one chart for the at least one historical time series display.

Applicant: GATTO
Serial No: 09/722,050
Filing Date: November 27, 2000
Page: 7 of 13

27. **(Previously Presented)** The system of claim 22, wherein the at least one time-series display displays the contributor's estimates and at least one other contributor's estimates for comparison purposes.

28. **(Previously Presented)** The system of claim 27, wherein the at least one other contributor is a best contributor based on predetermined factors.

29. **(Previously Presented)** The system of claim 27, wherein the at least one other contributor is a comparison contributor selected by the user.

30. **(Previously Presented)** The system of claim 27, wherein the at least one other contributor is associated with at least one of a high estimate, low estimate or mean estimate.

31. **(Previously Presented)** The system of claim 27, wherein the at least one other contributor is an enhanced composite estimate.

32. **(Previously Presented)** The system of claim 22, wherein the means for displaying further displays a time series display of the security's price simultaneously with the at least one historical time series display.

Applicant: GATTO
Serial No: 09/722,050
Filing Date: November 27, 2000
Page: 8 of 13

33. **(Previously Presented)** The system of claim 27, wherein each contributors' estimate is represented by a line, further comprising means for ensuring each line is visible even if the estimate over a particular time is the same.

34. **(Previously Presented)** The system of claim 33, wherein a first line is displayed as a line having a first thickness and a second line is displayed as a line having a second thickness.

35. **(Previously Presented)** The system of claim 1, further comprising means for selecting criteria to aggregate performance data, the criteria including at least one of an analyst, a broker, or an analyst/broker pair.

36. **(Previously Presented)** The system of claim 1, wherein the user-defined criteria includes a user specified number of periods over which to analyze performance, the system further comprising means for determining how many periods to show in the display of period-by-period data.

37. **(Previously Presented)** The system of claim 1, wherein the user-defined criteria includes a user specified time period prior to a report date, the system further comprising means for determining how far in advance of the report date to include estimates.

Applicant: GATTO
Serial No: 09/722,050
Filing Date: November 27, 2000
Page: 9 of 13

38. **(Previously Presented)** The system of claim 1, wherein the user-defined criteria includes at least a number and type of periods and a time period over which to determine the earnings estimates performance data.

39-94. **(Cancelled)**
